**Department of Practice of Medicine  
Clinical Cases Skill Development scheme (2013-2014)**

Medical science is a dynamic field; newer techniques are added every day, treatment protocols are updated regularly, reference diagnostic values change over a period of time. Program started on 2009.

**Objectives:**

1. Enhance analytical skills and research aptitude in clinical cases.
2. Research development.
3. Understanding and adapting case-solving style.
4. Identify the treatment errors, Philosophical knowledge and false conclusions
5. Rapid and ample diagnosis and estimating Medicinal and General Management.
6. Research field for Post Graduates, from the statistical work done by the interns.
7. Diagnostic level case study preparation, Presentation and submission to department of PM.
8. Retrospective research study for Post Graduates.

**Number of students involved: 45**
