| 14. | Infection control measures | To prevent infections regular infection control rounds, pest control measures done as per NABH standards |

| | | |
|-----|------------------------------------|--|
| 15. | Biomedical waste management system | By M/s Aseptic Systems Bio Medical Waste Management company, Tirunelveli. |
| 16. | Diablded friendly measures | Ramps, Lifts, wheel chairs and stretchers with safety belts.Adjustable Beds with side rails. Toilets with grab bars |
| 17. | Suggestion box | Suggestion box and suggestion registers are kept both in OPD and IPD |

FACILITIES FOR CLINICAL TEACHING- LEARNING

| 1. | Laboratories | Well-equipped laboratories with a capacity of 50 students at a time |
|----|-------------------------|--|
| | Anatomy Dissection Hall | The routine performance of dissection provides students with training in spatial appreciation and orientation and in the use of instruments. Most of these are directly related to surgery, but the acquired skill in eye-hand coordination and manual dexterity is relevant in a variety of clinical settings |
| | Physiology Lab | Physiology practicals are divided into two hematological experiments and human experiments. In hematology practicals students gain knowledge of basic hematology experiments and there by interpret the values. Human experiments include determination of vital signs and physical examination are performed among the students |
| | Biochemistry lab | Biochemistry practical conducted in this lab to illustrate common laboratory techniques used in biochemistry and clinical chemistry and the scientific principles upon which these are based, and to put these in a context where their relevance to clinical practice can be appreciated. |
| | Pharmacy Lab | The practicals performed here make the students familiar with the Homoeopathic drug preparation |
| | Pathology Lab | Practical sessions in pathology make the students aware about the clinical manifestations that arise from abnormalities in cell and tissues. Microscopic changes strengthen the grasp of underlying concepts |

| | | |
|----|--|---|
| 2. | Demonstration Rooms | All the departments have a demonstration room. Demo <i>rooms</i> allows students to practice and perfect their skills prior to patient interaction. They act as virtual learning centers. |
| 3. | Attached hospital | 100 bedded NABH accredited hospital of 3373.80 sqm |
| | Dispensary | Spacious and hygienic dispensary where the interns are posted in rotation to learn packing and dispensing of medicines |
| | Biochemistry and Pathological lab | NABL accredited well equipped, hygienic lab where students are posted in rotation for learning laboratory procedures |
| | OPD Units including Speciality Clinics, Dental OPD,Physiotherapy | Clinical postings of two hours duration commence from second year of BHMS course in OPD of different specialities. Interns are also posted in OPD in rotation for a duration of one month in each OPD. The daily work done by the interns and PG scholars are entered in their work done diary |
| | IPD units | Daily rounds and bedside teaching-learning in the IPD. Detailed case taking and general and systemic examinations can be done by the students under the guidance of medical officers. The daily work done by the interns and PG scholars are entered in their work done diary |
| | Operation theatre, labor room and ICU | To learn the basics of surgical and obstetrical procedures |
| | Radiology and Sonography Unit | Interns are posted in these units in rotation to understand the basic diagnostic procedures |
| | Clinical Discussion Rooms | To discuss clinical cases with an objective of making decisions regarding care with patients there are five clinical discussion rooms in the fourth floor of the hospital building. Students posted in each OPD who belongs to II,III and IV year including interns takes part in this discussion under the guidance of faculty |

| | | |
|-----------|---|--|
| 4. | Tie up hospitals | |
| | i.Kanyakumari Medical College,Asaripallam | To learn the postmortem changes and procedures for II year students |
| | ii.Thuckalay Government hospital | To learn the depth of Gynecology and Obstetrics for III year students |
| | iii.Bensam Hospital | To learn the various surgical procedures for the interns |
| | iv.Gerdi Gutperle Agasthiyar Muni Child Care Center | PG students of pediatrics are posted in rotation in this hospital |
| 5. | Court Visit | To make the students familiar with the procedures and to study the changes in postmortem |
| 6. | Skill lab | The center provided with centralized clinical and communication skills laboratory. The skills lab is primarily designed to teach and assess learners at all levels from first year medical to postgraduates and staffs. The infrastructure including models, mannequins and ICT facility that are available in the clinical and communication skills lab are designed to provide learners with the ideal settings to practice the clinical skills of history taking, physical examination, procedures, communications, and interpersonal skills. |
