### **Implementation of E-Governance**

Electronic Governance (e-governance) is the use of Information and Communication Technology for planning, implementation and monitoring the programs, projects and activities of the institution. E-governance of SKHMC is to boost the ability of the institution for addressing the requirements and this technology involves great use of electronic equipment for promoting good governance. E-governance can create the transparency between the universities, college and students. It is a set of activities involving the effective contribution of ICT for strengthening administration and management in the Institution. This organization adopted e-governance that includes computerization, management of registration, admission, student information, attendance, library, salary, EPF, ESI, examinations, finance, receipt and expenditure. The integration of ICT helps to reduce the intricacy and enhance the overall administration of the college. E governance is expected to help deliver cost effective and easy to access services, improve processing of transactions both within and outside the organization. It increases the participation in education by enhancing the library portals like KOHA, D-space, OPAC etc. which can access easily. It empowers the faculties and students by utilizing the e-facilities of the skill lab and upgrades the students' knowledge by utilizing the advanced repertorisation softwares. It encourages the participation of the faculties, students and staff of the institution in good governance.
