COMPLETE DYNAMICS:

A software program using the Complete Repertory which is elegant and user friendly. The free Browser Edition allows reading and studying the entire Complete Repertory for free of cost. The commercial Practitioner Edition adds Analysis, Case Management, and Materia Medica, for a very moderate price. Pricing is based on a subscription model, with no initial large investment like other commercial software, and free upgrades and support. Complete Dynamics is a program that is designed from the ground up to run on MacOs, Windows and Linux.

ISIS VISION:

The latest version of Miccant's ISIS system, ISIS Vision answers the need for increased ease of use and more powerful and sophisticated Repertory and Materia Medica searching. Offering all of the convenience and practicality of ISIS, but with added speed, power and flexibility, ISIS Vision is still the only software of its kind to combine repertories, Materia Medicas, remedy database, dictionaries and more in one convenient and simple interface. The only draw back is that it doesn't contains synthetic repertory. They are offering free up gradation.
